Insulation removal vacuums by Wm. W. Meyer & Sons, Inc. are designed for fast, profitable removal of fire, smoke and water damaged insulation from attics, sidewalls and crawl spaces. They handle bulky materials, wet or dry, from blown-in insulation to plaster chips. Our vacuums make short work of messy, time-consuming jobs. Collected material can be discharged into 75 cubic foot disposable collection bags or directly into a Dumpster® receptacle.

Engineered to Perform, Built to Last -- Since 1933

INSULATION REMOVAL SYSTEMS BY MEYER

## ELECTRO-VAC

# THE **POWERFUL** CHOICE FOR INSULATION REMOVAL

Wm. W. Meyer & Sons, Inc. has been a technology leader for three generations, creating proprietary concepts in vacuum collection, insulation blowing, rotary airlock feeders, pneumatic conveyors, dust collectors and dry bulk material processing equipment since 1933. The Electro-Vac continues Meyer's history of providing the world's most versatile and powerful vacuum equipment. We're the only company that offers it all.
